EXPERIENCE & PROJECTS

Quality Assurance Intern

PT. Sofco Graha (February 2025 – August 2025)

- Formulated and executed 876 comprehensive test cases in Notion across HRIS, Recruitment, and KPI applications to ensure all features met requirement specifications.
- Structurally tracked client feedback and validated software bugs, compiling 6 monthly progress reports to streamline bug resolution with the developer team.
- Authored detailed technical documentation, including 329 user guides and traceability matrices covering 329 specific HRIS menus, improving system workflow readability.

Final Year Project: Web-Based Medicine Stock Management System

Mojosulur Auxiliary Health Center (January 2026 – July 2026)

- Developed a Laravel-based medicine stock management system, digitalizing inventory tracking for 98 medical items.
- Implemented FIFO and Min-Max methods to assist in managing and controlling medicine inventory.
- Developed features for recording incoming and outgoing stock, as well as stock reporting.
- Conducted rigorous Black-Box Testing and UAT with 3 staff members, achieving a 90% user acceptance rate and seamless system adoption.

Community Service Project: Intro to Microsoft Word & Canva

SDN Semolowaru 1 (February 2024)

- Designed and delivered Microsoft Word & Canva training materials to 93 4th-grade students.
- Compiled official training modules and published the activity results in the Abdi Massa National Community Service Journal.

Community Manager

Dinamika Cyber Sport (August 2023 – August 2025)

- Built strong relationships, fostered positive interactions, and increased community engagement by up to 25% through targeted programs on Discord.

Event Coordinator

Dinamika E-Sport Championship 2024 (December 2024)

- Designed the event concept and timeline, successfully directing 4 committee divisions and managing an e-sport championship attended by 180 participants.
- Communicated actively with partners, sponsors, and external parties, and oversaw the event's budget utilization.
